

CYLINDER STYLES

REMOVABLE ROTARY CYLINDER

REMOVEABLE ROTARY CYLINDERS ARE SOMETIMES FOUND IN BB REVOLVERS & ARE MADE OF POLYCARBONATE (HARDENED PLASTIC) WHICH ALSO HELPS KEEP THE WEIGHT OF THE GUN DOWN. THEY ARE GENERALLY USED IN BUDGET FRIENDLY AIR PISTOLS.

BREAK OPEN REMOVEABLE CARTRIDGE

BREAK OPEN REMOVEABLE CARTRIDGE CYLINDERS ARE FOUND ON THE WEBLEY & SCHOFIELD REVOLVERS. THESE ARE HIGH QUALITY AND ARE THE EXACT SAME AS THE REAL THING. WITH THEM BEING REPLICAS, THE SYSTEM HAS BEEN TESTED AND USED ON THE REAL THING FOR DECADES.

SINGLE ACTION ARMY

THE COLT SINGLE ACTIONS ARMY HAS IT'S OWN UNIQUE RELOADING SYSTEM. THERE IS A STEEL ROD THAT RUNS DOWN THE BOTTOM OF THE BARREL, USED TO EJECT THE CARTRIDGES FROM THE CYLINDER. THIS LOADING MECHANISM TAKES AN INCREDIBLE AMOUNT OF SKILL TO MASTER & ONLY THE BEST OF 6 SHOOTERS CAN BECOME EFFICIENT.

SWING OUT REMOVEABLE CARTRIDGE

SWING OUT REMOVEABLE CARTRIDGE CYLINDERS ARE THE MOST COMMON STYLE OF CYLINDER THAT YOU WILL FIND ON A REVOLVER. THEY ARE REALISTIC & MIMIC THAT OF WHICH YOU WOULD FIND ON THE REAL GUN. THIS MECHANISM, HAS BEEN USED FOR DECADES & PROVES TO BE PROBABLY THE BEST, MOST EFFECTIVE WAY OF CHAMBERING ROUNDS TO DATE.
